System Requirements:

- Windows 10+
- 2GB storage location
- Internet connection

|	
Size:	1.65 GB (1,776,279,511 bytes)
Size on disk:	1.77 GB (1,903,898,624 bytes)
Contains:	80,767 Files, 11,006 Folders

Download the App:

After downloading the N-sense Desktop App you find a zip file in your downloads. Extract this zip in any location.

Name
N-Sense.exe

Run the Installer: Double clicking the .exe file will start the N-Sense installation process.

Accept Terms and Conditions: Accepting these terms allows N-Sense files to access files within it's directory, connect to N-Sense servers, and generate new files for your fields.

Choose Installation Location: Choose a location you are familiar with and more than 2GB of space. This will help you create shortcuts or open the program files in the future.
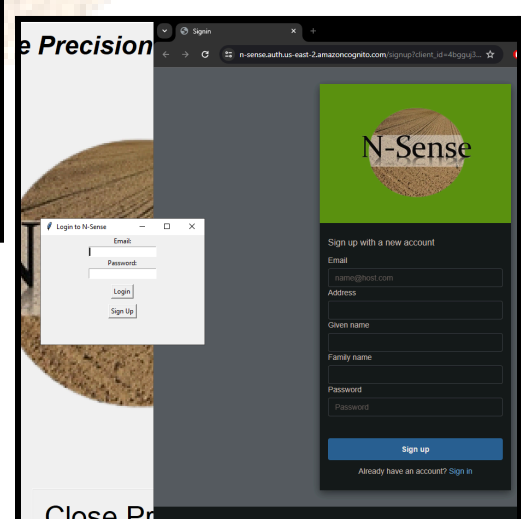

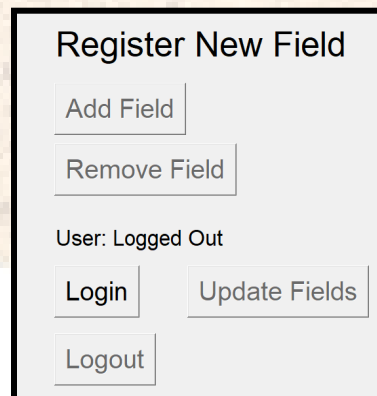

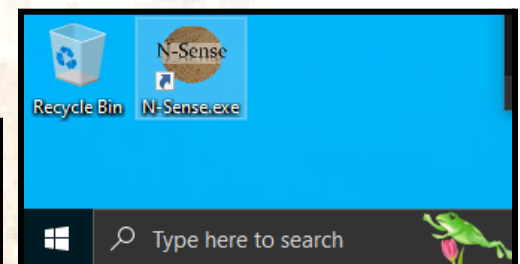

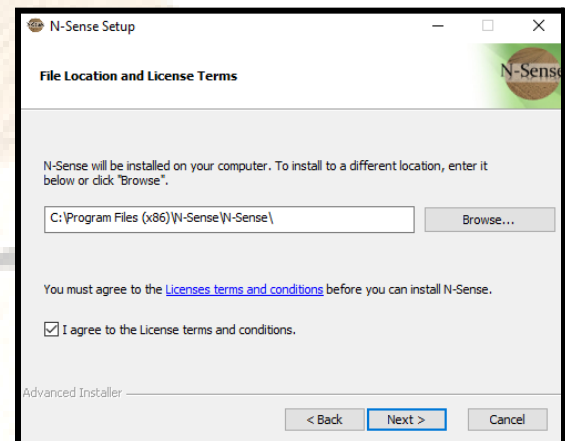

Completion and Launch:
The N-Sense installer is setup to generate Windows shortcuts on your desktop and start menu, although some windows systems/users can prevent this ease of access.

Creating an account:
Upon opening the N-Sense App, you will be in guest access until creating an account. Select Login, then Sign Up to be directed to the link here to register.
Make sure to validate your email to continue to the next step of selecting your field.

N-Sense

FAQ:

Missing N-Sense shortcut on your Desktop?
Navigate to the location selected to install
N-Sense.
There are 3 files designated to launch the
N-Sense app:
1. N-Sense.exe
2. run_N-Sense.vbs
3. run.bat

How do I add fields & generate prescriptions?
N-Sense has a separate PDF detailing how to use the app under the
Installation PDF on the Product & Services page.
